

PRODUCT GUIDE

iAquaLink™

SMART DEVICE. SMART POOL. SMART YOU.

ZODIAC

a better life®

Welcome to iAquaLink, the easiest to sell, easiest to install, easiest to use automation solution.

iAquaLink is a complete web-based pool control system that allows control of the pool anytime, anywhere. Using our free app on a smart phone or any web-connected device, pool owners can control all the elements of the pool, even when they are on the go. It takes just three easy steps to install, and can be completed in minutes. No other solution offers the ease, versatility, and profit potential of iAquaLink.

EASY TO SELL

TO THE CONSUMER

- **Best-in-class automation solution**
 - Complete control for the pool and spa anywhere, anytime, with any web-connected device.
 - Familiar app-based control for ease of use and quick adjustments to the pool.
 - Pool owners can turn on the spa while at the gym, check pool status while away from home, and allow the pool service company to make adjustments or troubleshoot.
- **Trusted brand**
 - AquaLink® is the most trusted name in pool automation.
 - Best selling pool automation system.
- **Seamless integration**
 - Works with any AquaLink RS or PDA system.
 - Seamless addition to an AquaLink system.
 - No additional wires, wall panels, or charging bases required.

EASY TO SELL

TO THE SERVICE TRADE AND RETAIL

- **Great profit opportunity**
 - Upgrade any AquaLink® RS or PDA system ever made.
 - Over 300,000 AquaLink systems currently installed. Untapped profit potential!
 - Consumer market rapidly shifting to smart phone control for everyday tasks.
- **Easiest system to install**
 - One device to connect and configure.
 - Works with consumer's Wi-Fi or ethernet cable for the ultimate versatility.
- **A new solution**
 - No other user interface required; a fast, easy to install upgrade solution for aging AquaLink systems or existing inconvenient user interface locations.

TO THE BUILDER TRADE

- **Economical**
 - iAquaLink™ plus RS4 equals a great value on high-quality automation.
 - Genuine premium AquaLink performance and quality, at an economical price.
 - No user interfaces to install or replace; the consumer's smart phone or computer is the user interface.
 - Apps are free.
- **Simplicity**
 - No other user interface needed. No drilling holes in walls, running conduits, or pulling cable over long distances.
 - One device to install at equipment pad.
 - No separate wireless routers needed.
 - Uses consumer's existing Wi-Fi network, or ethernet cable.
- **Versatility**
 - Outdoor Wi-Fi receiver with multiple installation options.
 - Works with all AquaLink options and additional user interfaces if desired.

1. SETUP

- One device that attaches to any AquaLink® RS or PDA Power Center.
- 50' cable allows many device location options.
- Can use existing AquaLink wired user interface connections for even more location options.

2. CONFIGURE

- Connects to consumer's internet service via Wi-Fi or ethernet cable.
- Secure operation on consumer's internet service with SSID and password protection.

3. REGISTER

- Easy online registration takes just minutes.
- Free service; no subscriptions or other charges.
- Consumer can have multiple devices on one account for summer homes, separated systems, etc.
- Service companies can create accounts with multiple consumer devices to help manage routes and eliminate unnecessary service calls.

INSTALLATION HELPFUL HINTS What you need before you install:

1. Wi-Fi installations:

- Customer's SSID (the wireless network name)
- Customer's Network Key (the wireless network password)
- The iAquaLink™ Web Connect Device ID number

2. Ethernet cable installations:

- Ethernet cable from the customer's router to the iAquaLink Web Connect Device
- The iAquaLink Web Connect Device ID number

3. If upgrading an existing AquaLink RS or PDA:

- Model and Firmware Revision number of the existing system

Go to SELECTING THE RIGHT UPGRADE KIT on page 12 for more information.

CONVENIENT

- Operate the iAquaLink™ system from any web-connected computer or smart phone.
- FREE app available for iPhone®, iPad®, iPod Touch®, and Android® devices.
- Makes operation fast and simple.
- Control the pool from virtually anywhere.

SIMPLE

- Can be used as the only user interface or in conjunction with all AquaLink® user interfaces including: OneTouch™, Touch, All Button, PDA, and AquaPalm™.

COMPLETE

- Fully functional; operate all equipment, change heater temperatures, adjust schedules, and customize the iAquaLink system anytime, anywhere.
- See water temp, air temp, and equipment status at a glance.

SELECTING THE RIGHT UPGRADE KIT

Identifying the required upgrade part number

If you have Aqualink® PDA
Use Part Number IQ900-PDA

If you have Aqualink Touch™
Use Part Number IQ900

If you have AquaLink All-Button or One Touch panel you must determine the revision number of the installed system as follows:

Aqualink All-Button Panel

- 1 Press MENU Button
Press ← or → buttons to scroll menu options
- 2 Select SYSTEM SETUP and Press ENTER button
Press ← or → buttons to scroll menu options
- 3 Select DIAGNOSTICS and press ENTER button
Press ← or → buttons to scroll menu options

4 If you have:

Aqualink Model RS Rev. C through MMM (pre 2007) use part number IQ900-RS

OR

Aqualink Model RS Rev. N through QQ (2007 and after) use part number IQ900

Aqualink OneTouch Panel

- 1 Highlight MENU/HELP and press SELECT
Press ▲ or ▼ buttons to scroll options
- 2 Press SELECT button for HELP
Press ▲ or ▼ buttons to scroll options
- 3 Highlight DIAGNOSTICS and press SELECT
Press ▲ or ▼ buttons to scroll options. FIRMWARE information will appear
